ACCUMULATED MONEY
In a recent issue of the syndicated column, "Today," Arthur Brisbane re lates George Bernard Shaw, the Eng lish Socialist, when he says that ac cumulated money is the root of all evil.

Brisbane replies that it is accumu lated money that has hampered Na ture. He says that the Panama Canal, and has placed automobile production at a quantity basis that has given the American people 2,000,000 inexpensive motor cars.

Great accumulations of capital, like great accumulations of water, going downhill, represent power. Eliminate accumulated capital and you would eliminate possibilities of high re volution.

He says the people have brains enough to watch and control accumu lated capital and take advantage of the benefits conferred by it, quoting these figures to prove that the coun try is prosperous: In May, corpora tions paid for payment of taxes and costs, assessed to the owners, about \$347,000,000, and in June divi dends will be made on \$100,000,000.

The first of June, the total number of persons employed by all Detroit motor car factories was 325,075, high est on record—real prosperity.

STATE PAPERS TO STAND BY PARTY

Many newspapers in Alabama who were opposed to the nomination of Al Smith have declared that they will stand by the party in the November election, while others have definitely announced that they will vote for Hoover.

The Jasper Eagle states that "Some of our Republican friends say that Smith is so wet he carries the odor of Whisky, BUT—"

The American people would rather smell a little whisky than to smell so much oil."

The Baldwin Times speaking editorially says: "We would rather vote for ten Smiths before we would endorse the story of crime and thievery that is the story of the Republican party for the past eight years."

On the other hand several papers have announced that they will turn from the Democratic party to Hoover and the Republicans.

The Foley Outlook says: "The Outlook was opposed to the nomination of Smith. The fact that he was nominated at Houston doesn't change him in our mind at all. We are still opposed to him. There is but one alternative. That is to support Hoover and Curtis in preference to Smith and Robinson."

All in all it would seem that the majority of the State papers intend to stand by the party in November, and that the choice will be its usual Democratic way at the polls.

"The farmer should not forget to plant forage crops for the spring crop to fatten on next fall."—F. W. Burns, Auburn.

The longest-lived tire built

MOST tire manufacturers make several grades of tires, but Michelin makes just one grade—the best. Only the finest materials are used in all Michelin tires. For instance, Michelin rubber comes from selected plantations and is 2c more per pound than the market price. Moreover, the most advanced design and manufacture are used throughout. For example, Michelin has pioneered in the use of high-twist cord, and Michelin tires have always been made of rubber-saturated fabric, now widely advertised. No wonder it pays to use Michelines.
